EDUCATION

Lambton College   Toronto, ON
Full Stack Software Development (FSDT)   May 2024 - Present
Cumulative GPA: 3.3/4.0

Gujarat Technological University   Ahmedabad, India
Bachelor's Degree in Engineering (B.E.), Information and Communication Technology   Jun 2019 – Jul 2023

WORK EXPERIENCE

RewardsX Loyalty Platform International Inc   Edmonton, AB
Full Stack Software Developer   Jan 2025 – Present
- Developed and optimized backend APIs using Express.js (MEAN stack) to enhance merchant reward integrations and authored technical documentation to streamline API integration and improve team collaboration.
- Led Python-based data pipelines for the Brine Merchant Tool, automating nationwide merchant data aggregation. Improved frontend functionality and resolved bugs in AngularJS to enhance user experience.
- Spearheaded performance optimizations across backend services, reducing API response times and improving overall system scalability under high user load.

Elixir Techne   Ahmedabad, India
Junior Backend Developer   Aug 2023 – Mar 2024
- Contributed to the Money Circle project, a collaborative savings and investment platform designed to empower group-based financial growth.
- Engineered scalable, serverless backend services using AWS Lambda and Django REST APIs, seamlessly integrating API Gateway and S3 for efficient data management.
- Executed comprehensive testing workflows with Postman and AWS CloudWatch, ensuring system reliability, performance, and resilience.
- Focused on cloud-native development using AWS Cloud9, leveraging Git for version control, team collaboration, and streamlined deployment processes.

Codepoets Pvt. Ltd.   Ahmedabad, India
Web Designer   Feb 2023 – July 2023
- Created pixel-perfect Figma designs based on client-provided documentation for software companies, enabling frontend developers to build seamless interfaces.
- Delivered custom WordPress, Shopify, and Wix websites for a diverse range of Indian businesses, spanning both single-page and multi-page architectures.
- Led full-stack web deployment including hosting, database management, and optimization. Designed visually engaging marketing templates and digital assets using Canva, elevating clients' branding across campaigns and online platforms.

InfoLabz   Ahmedabad, India
Web Development Intern   Aug 2022 – Aug 2023
- Developed RESTful APIs for multiple projects using Django and Django REST Framework.
- Designed dynamic frontend pages by leveraging Django's template system. Collaborated with the development team to integrate backend APIs with frontend designs. Worked with HTML/CSS to customize Django-rendered templates for various client projects.

Render Infotech   Ahmedabad, India
Web Development Trainee   Jun 2021 – Aug 2022
- Worked on production-level React.js projects by identifying, analyzing, and fixing bugs. Gained hands-on experience reviewing large-scale codebases and understanding best practices for scalable web applications.
- Performed manual testing of application functionalities, validating frontend behavior and backend database updates.

PROJECTS

CollegeMate Website
- Developed a Django-React full-stack platform for student project bidding and collaboration.
- Enabled secure authentication, dynamic posting, and profile management to support a student marketplace.

Movie App
- Built a React-based web app with full CRUD for movie management and a personalized favorites list.
- Integrated external movie APIs and implemented a responsive, dynamic user interface.

Urban Nest
- Created an e-commerce site using JavaScript, HTML, CSS, and Bootstrap with shopping cart and checkout.
- Implemented local storage for persistent cart data and dynamic product filtering.

ReciMe
- Designed a recipe-sharing platform with Django backend and interactive AJAX-based frontend features
- Enabled community engagement through likes, bookmarks, reviews, and a curated chef section.

Airbnb Replica
- Built a full-stack web app with Node.js, Express.js, MongoDB, and EJS replicating Airbnb features.
- Implemented listing browse, filter, and pagination with backend APIs and dynamic rendering.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, Java, C#
Web & Frameworks: HTML, CSS, Bootstrap, jQuery, AJAX, React.js, Tailwind CSS, Django, Fast API, Express, Angular
Databases & Servers: MySQL, PostgreSQL, AWS (EC2, S3, RDS, Lambda, API Gateway, Cloud9, CloudWatch)
Core Technical Skills: Web Development, Backend Development, Frontend Development, REST API, System Architecture
Soft Skills: Project Management, Team Leadership
